MRS. PETER GUNNESS
(BY ASSOCIATED PRESS.)
JANESVILLE, N. Y., May 9.—Mrs. Cora Belle Heron, widow of Frederick H. Heron, former vice president of the Southwestern Chemical company, Chicago, who was arrested by Syracuse detectives in a Pullman sleeper this morning on suspicion of being Mrs. Peter Gunness, the Laporte, Ind., alleged murderess, today was able to prove her identity and will go on to New York this afternoon.

Not Mrs. Gunness' Body
Laporte, Ind., May 9.—Dr. Harry H. Long, former coroner of Laporte county, who assisted in the post mortem examination over the body supposed to be that of Mrs. Gunness, today declared the body of the woman in that of a woman who weighed fully fifty pounds less and was five inches shorter than Mrs. Gunness. Dr. Long says Mrs. Gunness is still alive.

Threatened Clark
The threatened clash between the authorities and H. B. Worden, attorney for Ray Lamphere, over his rights to see the prisoner, was averted today, Worden having been admitted to the jail where he talked with Lamphere for more than an hour.

No Trunk
Worden strongly denied the story that a trunk had been found containing letters written by Lamphere to Mrs. Gunness and asserted there is absolutely no truth in the statement that Lamphere desired to confess or had anything to confess.

OAKLAND WELCOMES THE BLUE JACKETS

City Across the Bay Entertained Vis-
iting Sailors During the
Day.
(SPECIAL TO THE GAZETTE.)
San Francisco, Cal., May 9.—The city of Oakland had her buildings today in providing entertainment for the sailors and officers of the American battleship fleet. Thousands of blue-jackets visited the city across the bay, where the people gave them a hearty reception and left nothing undone to contribute to their pleasure and entertainment. During the forenoon there was a large naval and military parade similar to that seen in this city earlier in the week. Then there was the usual barbecue, followed by athletic contests and other sports.

Oakland provided an unusually elaborate program for the entertainment of the visiting officers, included among the features were automobile rides about the city and a trip to Piedmont Springs, a reception at the Athenaeum and a banquet at Hotel Park Pavilion.

The ships were open to visitors all day today and the children were made especially welcome. Craft of every description carried passengers between the ships and shore and all were crowded throughout the day.

FUTURE KING HAS FIRST BIRTHDAY

Observed as a General
Holiday.
(SPECIAL TO THE GAZETTE.)
Madrid, May 9.—The bells of the capital will peal out merrily tomorrow and red and yellow flags and bunting will be displayed everywhere in celebration of the first birthday anniversary of Spain's future king. The day will be observed as a general holiday throughout the kingdom. In recognition of the event King Alfonso today granted amnesty to a number of political offenders. The Prince of the Asturias is a thriving youngster and in the enjoyment of perfect health. It is expected he will have a little brother or sister for a playmate before the end of the present summer.

GETTING READY FOR BIG G. O. P. SHOW

National Committee Will Meet During
the Next Week to Choose
Officers.
(SPECIAL TO THE GAZETTE.)
Chicago, Ill., May 9.—Secretary Sawyer and his big force of clerks and stenographers of the republican national committee are preparing to take possession of their offices in the Coliseum next Monday. This means that from now on Chicago will be the cynosure for all eyes in the political world. Before the end of the coming week the full national committee will meet here for the purpose of selecting the temporary chairman of the convention and the other temporary officers and to seal the eleven-hour plans for the convention. Scarcely will this work have been disposed of when the national committee will re-assemble and begin the hearing of the contests.

This program will bring the bulk of the convention delegates, party leaders and attaches, to Chicago within the next two weeks. There will be the national committee members and the delegates who are fighting each other for places on the temporary roll of the convention, and it naturally follows that, with so many early arrivals, the rival Presidential candidates will send their headquarters' staffs and campaign managers to Chicago at least two weeks in advance of the date set for the convention.

FIGHTERS TO MEET IN FRISCO TODAY

Stanley Ketchel and Jack (Twin) Sullivan Will Clash This
Afternoon.
(SPECIAL TO THE GAZETTE.)
San Francisco, Cal., May 9.—That the boys of Uncle Sam's navy are great lovers of athletic sports, and particularly pugilism, was evidenced by the lively demand among the jacks for tickets of admission to the Alameda street arena, where Stanley Ketchel and Jack (Twin) Sullivan are to have it out for thirty-five rounds late this afternoon. Promoter Corbett reported the sale of seats to be much larger than he had anticipated. Ketchel and Sullivan are expected to put up a fight well worth the price of admission. They are regarded as evenly matched and both are hard hitters and quick on their feet. According to agreement they weighed in at 156 pounds at 10 o'clock this morning, both apparently in condition to put up the fight of their lives.

The Ketchel-Sullivan will be the first of the series of ring events arranged as a part of the entertainment for "Fleet week." Next Tuesday Joe Grim and Al Kaufman are to take it up for six rounds. Then will come the big event of the week, the 20-round contest for the lightweight championship between Joe Gans, the present holder of the title, and Rudolph Ulzholz, the Boer fighter who has shown up well in his recent fights. The go between Gans and Ulzholz is scheduled for next Thursday night and is already attracting lively attention among the ring followers. From previous indications Gans will enter the ring a 2-to-1 favorite over the Boer.

SERIOUS CHARGE IS MADE BY STUDENTS

Beloit Orators Claim That Lawrence
University Man Borrowed Parts
of Speeches.
(SPECIAL TO THE GAZETTE.)
Beloit, Wis., May 9.—Followers of intercollegiate oratory at Beloit college allege that portions of the oration delivered by Ross M. Barrett of Lawrence university in the state contest in Ripon March 13 when he secured second place, were plagiarized. They charge that phrases and whole sentences were lifted from Beloit orators that have in the past won interstate contests and some sentences were even adopted from the oration of Arthur E. Fish of Beloit who won the state contest last year. At present Beloit men are endeavoring to secure a copy of Mr. Barrett's oration in hope of securing evidence. If the case should be proved, second place would go to Benjamin M. Powers of Beloit and Beloit college would then have a perfect foreign record for the year, including victories in oratory and debating.

AMBASSADOR BRYCE IS 70 YEARS OLD

Will Celebrate His Birthday Tomorrow—Will Speak in Middle
West.
(SPECIAL TO THE GAZETTE.)
Washington, D. C., May 9.—Ambassador Bryce, one of the most popular foreign diplomats who ever resided in Washington, will be seventy years old tomorrow. If anyone were inclined to doubt Mr. Bryce's popularity with the American public, a look at the Ambassador's daily mail would convince him. There is scarcely a day that he does not receive from one to a dozen or more invitations to attend public functions or speak at convocations and meetings of various kinds. These invitations come from every part of the country and it is doubtful if any public man in Washington, with the exception of the President, receives more of them. During the past few weeks the Ambassador has been heard in public addresses in several Southern cities. Before he leaves Washington on his summer vacation he will take several trips to the middle West to speak at university commencements and on several other public occasions.

COMMANDING OFFICERS OF FLEET ARE CHANGED TODAY

Rear-Admiral Charles M. Thomas To Become
Commander-In-Chief Of The Fleet.

(SPECIAL TO THE GAZETTE.)
Washington, D. C., May 9.—Important changes are due among the commanding officers of the battleship fleet at San Francisco today in pursuance of orders issued by the Navy Department. The most important change is that affecting Rear Admiral Evans, the commander-in-chief of the fleet. Rear Admiral Charles M. Thomas, who has commanded the second squadron of the Atlantic fleet, relieves Rear Admiral Evans of the supreme command. The change marks the close of Rear Admiral Evans' active career in the navy, though he is not to be officially retired until next August.

Rear Admiral W. H. Emory is detached from duty in command of the second division, first squadron, and will command the fourth division, second squadron. Rear Admiral Charles S. Sperry is relieved from command of the fourth division, first squadron. Captain Alexander Sharp succeeds him as commander of the battleship Virginia.

Admiral Thomas, who succeeds to the command of the fleet, is one of the veteran officers of the navy. Born in Philadelphia in 1816, he entered the Naval Academy at the beginning of the civil war and was graduated in 1865. For four years he served in the Shenandoah, on the Atlantic station. Few of the present officers of the navy have seen more varied service than has Admiral Thomas. He was stationed at the Centennial Exposition from 1876 to 1877, and was in charge of the Constitution at the Paris Exposition in 1878. From 1880 to 1884 he served at the Naval Academy and during the next three years he was on the flagship Hartford of the Pacific squadron. Subsequently he commanded the coast survey steamer Paterson, was a hydrographic inspector in the coast survey for two years. In the Bureau of Navigation from 1891 to 1893, he commanded the Dennington during the next two years, and was in turn commander of the Naval Home, the War College and the Naval Academy. From 1899 to 1902 he commanded the battleship Oregon. In 1905 he reached the grade of rear admiral.

Rear Admiral Thomas will have supreme command of the fleet for a very short time. He will not retire for age until October, but as the fleet will shortly leave the Pacific coast to resume its trip around the world it will of course be necessary to make another change in commanders. Rear Admiral Charles S. Sperry is the officer chosen to succeed Rear Admiral Thomas in command of the fleet and it is expected the transfer will be made before the ships leave San Francisco next week.

Admiral Sperry is regarded as one of the finest strategists and tacticians in the navy, and that is why he has been selected to take charge of the battleships and cruisers for the rest of the journey around the globe. He is an expert in his line, one of the most accomplished officers of the navy, thoroughly up to date in all branches. Moreover, he has spent years abroad in the Chinese and Pacific stations, to say nothing of the European station, and is entirely familiar with all the conditions that will arise as the fleet continues its cruise to the Far East.

Admiral Sperry is a native of Brooklyn, but his family removed to Connecticut when he was a youth, and in 1862 he was appointed to the Naval Academy from that state. He had no opportunity to take part in the civil war, as he did not graduate until 1866. During the next twenty years or so he served on the Pacific and European stations.

In 1893 he came to Washington and was attached for two years to the Bureau of Ordnance, as he was an expert in such matters. In 1894 he became a full commander, and from July, 1895, to May, 1898, was stationed at the New York Navy Yard. Then Sperry did not get his chance to get into a fight. He was attached to the Yorktown as commander of the vessel, and started across the Pacific to the Chinese station. But by the time he reached the other side, Dewey had wiped out the Spanish fleet in Manila Bay and there remained nothing in the fighting line for Sperry to do. He became a captain in 1900 and a rear admiral in 1906.

In a technical way Admiral Sperry has been prominent. For two years he was president of the War College. He was a member of the general board and of the joint army and navy board, which considered the question of fortifications for the insular possessions of the United States. Last summer Admiral Sperry served as one of the American delegates to the peace conference at The Hague.

MADE MISTAKE WHEN GOVERNOR HAS SENT THEY PASSED LAW OUT PROCLAMATION

City Attorney of Manitowoc Says
Legislature Made Serious Error
in Law.
(SPECIAL TO THE GAZETTE.)
Manitowoc, Wis., May 9.—That the legislative bureau made grave errors in attempting to amend the general charter law last year and as a result Manitowoc and other cities are prohibited from adopting the city system of school until the legislature enacts new laws or amendments, is the opinion of City Atty. A. L. Hengen presented to the council. Mr. Hengen offers two fatal defects in the charter law, affecting schools, one being that the law makes no provision for a school board and the other that the city council is authorized to levy the school tax and this is impossible where parts of joint districts, taken into the city system, may lie outside the city, as is the case here. Mr. Hengen advised the council that the city system, for which there has been agitation for two years, must wait the session of the legislature and the council will make no attempt to proceed now.

BELOIT FACTORY TO OPEN FOR BUSINESS

Line City Rejoices in News That Its Big Engine Concern is to Open Its Doors.

Beloit, Wis., May 9.—Indications are that the John Thompson & Sons' Manufacturing company will soon take their business from the hands of the receiver. They have deposited in the United States court the necessary amount of cash to make a settlement with the creditors.

This is subject to the confirmation of Judge Landis, after a ten days' notice to all creditors. If the settlement is confirmed, all wage claims, being preferred claims under the law, will be paid in full.

TO CLEAN UP CROP IN RECORD ORDERS

Tobacco Men Selling Off Their Last Year's Product and Making Ready for the New Crop.

From reports received about the county the Edgerton Tobacco Reporter says that the movement that seems destined to clean up the balance of the '07 crop goes steadily on. While the volume of transactions are falling off the buyers now in the field are as actively engaged in hunting up the remnants as at any time. There cannot be much more than ten per cent of the crop remaining unsold, which a few weeks more at the present rate will absorb. The bulk of the transactions continue to be made at low figures, mostly under 6 cents, and yet we prefer to give space to these sales that indicate some profit to the grower, and show the range prices are taking.

For six months of the year 1855 he was a resident of Janesville and not long thereafter took up his permanent residence here. For a time he was engaged in building bridges and culverts for the St. Paul road between this city and Broadhead and afterwards he engaged in the contract business and began his operations of the many sturdy and substantial buildings which made him a most important factor in the community. Judge Grimm Finds for Sarah Olivia Hoffman in Divorce Suit Started by Her Former Husband.

In the action of Dr. Coleman L. Hoffman of Galena, Ill., vs. Sarah Olivia Hoffman of Iowa City, Ia., which was tried in circuit court the fore part of this week, Judge Grimm has granted a decree of absolute divorce to the defendant who filed a cross-bill alleging cruel and inhuman treatment. The plaintiff is to pay \$75 in addition to the amount already paid for costs and disbursements and additional attorney's fees, and the sum is to be paid in cash within ten days. Until the child is sixteen years old, and until the further order of the court, the plaintiff is to pay \$30 a month as alimony and for the support of the child, and such sum is to be paid by depositing the same to the defendant's credit, subject to her order, in whichever of the Beloit banks she may designate, on or before the first day of each month. The first payment is to be made on June 1. Atty. T. D. Woolsey represented the plaintiff in this sensational trial and Hon. A. E. Maine of Iowa City and Nolan, Adams & Reeder of Janesville were counsel for the defendant.

THE SONG OF THE CIRCUS.

The song of the circus is heard in the land,
The banners are silken from far Samarcand,
The wave o'er the combat, the quagga and kum,
The camel, the yak and the blithe kangaroo,
The hand painted zebra's a symphony grand,
The song of the circus is heard in the land.

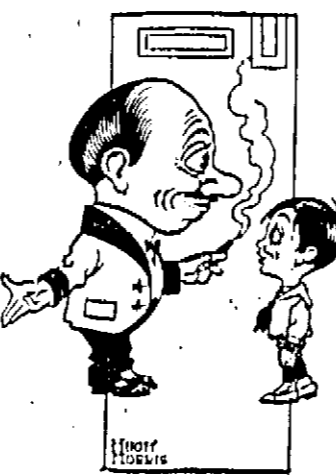

land.
The poster is blooming green, yellow and red,
And stands the blithe wreath with joy on his head,
The barrel of fancy we spin on our shoon,
And jump from the bag through the paper balloon,
The song of the circus is heard in the land—

The trick male embroiders his tricks on the sand,
The poster discourses its solo serenade,
With envy the red lemonade's turn-
ing green;
The clown on the sawdust cavorts to the band—
The song of the circus is heard in the land.

GARRELS VERSUS SHERIDAN.

Will the Michigan Athletic Giant Wrest First Honors From Champion?

No figure in the world of athletics is attracting more attention these days than that of John G. Garrels, the great all-around athlete of the University of Michigan. Many times in days gone by the athletic experts have racked their brains trying to figure out whether or not Garrels is a greater all-around man than Martin Sheridan, American all-around champion and the hero of Athens. Now, all agree that in the individual events Garrels has better marks than the New York poleman, but to go through the ten events in two hours and stand up under the strain as Sheridan does—this is another matter. If neither Garrels nor Sheridan disappoints the populace of Pittsburgh on June 20, the long discussed question will be decided when they meet in a specially arranged all-around match.

One thing is certain—the American Olympic team for the London games will not be complete without this same John Garrels. He can place in the shot put, discus throw, high hurdles and possibly in the 400 meter low hurdles. Garrels has never run the 400 meter low hurdles, but there is every reason to believe he would make a champion at it. In the regulation 220 hurdles the westerner is the fastest man in the country, save possibly Harry Hillman, and as he runs some three quarters miles as a schoolboy Garrels ought to be able to run close to the record in the long hurdle race. In the other events the Wolverine's records speak for themselves. He broke the discus mark once, but lost it on a technicality. At the intercollegiate games last spring Garrels raced over the high hurdles in 15 1/2 seconds, tying the record. Garrels is in the front rank of shot putters too. When in tip-top condition he hurls the iron ball out to the forty-six foot mark. Performances of this grade are valuable assets to any team, and Garrels in any kind of condition will be a tower of strength in the Yankee attack at London.

Every true American is hoping that Garrels will come out and train hard for the Olympic team. With Garrels and Sheridan shoulder to shoulder in the London meet the stars and stripes will flutter in the breeze when the victory bugle sounds even oftener than they did at classic Athens two years ago. Sheridan himself is more than anxious to see the great western athlete among the Olympian voyagers. "He's the greatest all-around athlete in our country—that's what I think of him," said modest Martin. "Some day I hope to meet him, and, win or lose, that will be the greatest day of my life."

Says Crawford Should Be on First.
Larry Lajole thinks first base is the place for Sam Crawford. He says a big man like Sam would be all the better for the additional work he would get at first base and hit better. "I know I always hit better when I have plenty of opportunity to handle the ball," declares Larry.

Hickman Makes Good Point.
Charley Hickman of the Cleveland Americans wonders why men who do not get into the game over once or twice a week, if that often, are expected to make hits in pinches when they forget what pitching looks like and what bats are for.

Second Baseman Patten Makes Good.
If Harry Patten's present clip is a fair sample of what he can do regularly, the Brooklyn Nationals have found a second baseman who measures right up even with Johnny Evers and Miller Huggins.

NEW BALL RULE APPROVED.
Regulation Prohibiting Pitchers Sailing New Ball Meets With Favor.

General satisfaction is heard from all sides, fans and players alike, over the construction put on section 4 of rule 14 of the playing rules, which prohibits the pitcher, the pitcher included, from taking time to discard a new ball. The immediate result of this rule has been to shorten the games anywhere from five to ten or fifteen minutes, according to the number of new balls that have had to be put in play by the umpire.

Any game that is run off in an hour and a half or an hour and forty minutes is considered fast enough for the general public.

Several years ago there appeared a tendency to play long drawn out games of two hours or more. Corrective methods were instantly sought, and among others adopted was the foul strike rule. The tendency has been increasing the last season or two, however, and now comes this rule prohibiting discoloration of the ball by any player, and the effect is shown at once.

Some pitchers have objected to the rule, saying it is impossible for the pitcher to get the proper grip on a brand new smooth baseball to curve it, and predictions have been made from time to time that the batting averages of the players would shoot skyward.

Figures to date do not carry out this prediction, for the pitchers apparently have about the same control they have shown in the past, and the batsmen are finding it just as hard to get started in their spring hitting as formerly.

KEEP THE KIDNEYS WELL.
Health is Worth Saving, and Some Janesville People Know How to Save It.

Many Janesville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Janesville citizen's recommendation.

Mrs. Annie Fitzgibbon, of 208 South River street, Janesville, Wis., says: "I was almost hopeless with pains in the small of my back and general physical weakness due to kidney trouble. I could not sleep and got up straight again without taking hold of something, and finally I got so bad that I could not attend to my household work. About this time my attention was called to Doan's Kidney Pills and I procured a box at the People's Drug Co. I used them and they cured me. I have not had a backache nor any of those feelings of weakness since. I consider Doan's Kidney Pills a wonderful cure for backache and kidney troubles."

VISITED HERE TO INSPECT VICTIMS

MRS. GUNNESS SPENT SATURDAY TO MONDAY IN JANESVILLE

DIDN'T HAVE MONEY ENOUGH

She Was Then the Widow Sorrenson—Later Married Peter Gunness—Swanilda Gunness' Story.

It would appear that aside from marrying Peter Gunness, whose relatives reside in Janesville, the Indiana murderess made a previous attempt to capture the affections of a Janesville man in the person of Peter Frederickson, who died several years ago.

Not only did she correspond with Frederickson and have Frederickson visit her in Chicago but she came to Janesville one Saturday night and remained over until Monday so that she might investigate Frederickson's financial standing.

Evidently it was not up to the standard she desired as she dropped Frederickson after her visit here and later married Peter Gunness who was then living in Minneapolis.

Mrs. Hilda Quenne, who lives on Arch street and is employed in Rumlill's tobacco warehouse remembers Mrs. Gunness, then Mrs. Sorrenson, visit to Janesville and places at some time seven or eight years ago. Of the date she is not certain.

In fact Mrs. Quenne was invited to meet Mrs. Sorrenson at a supper which was served at Peter Frederickson's home. Something prevented it and she did not go but she remembers the visit and the talk it created at the time.

Another development is that Mrs. Peter Gunness, senior, the mother of Gust, Carl and the dead Peter, was at this time house keeper for Mr. Frederickson.

Like Frederickson, Gunness met his members as a big fleshy woman with a determined face. The general opinion of the people who saw her at that time was not favorable she remembers.

Relatives here differ as to the dates of the death of Peter Gunness' first wife in Minneapolis but are certain it was in September and that he married the Sorrenson woman the following spring. Then he went to Indiana to live taking his little girl, Swanilda, with him.

Like Frederickson, Gunness met his wife through a matrimonial agency or an advertisement in a newspaper. It is understood that his relatives did not approve of the match. It is certain that he must have had money or the woman would not have married him as she turned down Frederickson because he did not have enough to suit her fancy.

The stories about the rescue of Swanilda from Indiana home also differs somewhat as told by different people. According to Carl Gunness, Gust went to Indiana when he learned of his brother's death and demanded part of his life insurance for his orphaned daughter which was refused and then came back bringing the child with him and hiding with his mother who then lived on Western avenue.

Others state that Mrs. Gunness wrote that some one must come for Swanilda as she had three children of her own to care for and could not care for any more and that she sent the little girl to Janesville all alone. Swanilda herself remembers the visit of her Uncle Gust to Laporte and how glad she was to come back with him to her Grandma.

Swanilda's age is also in dispute. Some relatives place it at eleven and others say thirteen. She is a bright plump faced little miss, very studious and much loved by her foster parents, Miss Simonson of Abilene, Kansas, where she lives.

Last evening Mr. Simonson was communicating with over the telephone. He said that he took the little girl after grandmother's death to give her a home with his two little people. He was sorry for her and she did so enjoy being on his farm.

He described her as a bright child, fair haired and with round regular features, much interested in her home and school.

Last evening she was to speak at a place at the Arbor Day exercises at the district school she attends, something about birds and trees and flowers," she described it.

According to Swanilda she was at the Indiana home of her step mother for nearly a year after her papa died before her Uncle Gust came for her. During this time she wished she could go away. Mrs. Gunness was cruel to her, both she and her little companions, Lucy and Myrtle. Mrs. Gunness' own two little girls were afraid of the woman and so was Jennie Olson, who was older and lived with them.

Jennie Olson is one of the victims of the woman's vengeance and her dead body was among the first discovered at the investigation of the farm gateway by the sheriff.

Swanilda says that the other children were afraid of Jennie too. That Jennie told stories on them and that she was glad to come to Janesville away from them all.

While living there Swanilda does not remember any boxes coming for her step mother or trunks of mysterious packages. She thinks she would have known it if they had.

However, she knows that strange men came there almost within a month of her papa's death. That when they came and the other children were sent out of the way or locked in their rooms if it was at night.

She does not remember any of the men who came not going away again or their names or where they came from, only that they were there.

The little girl does not remember anything about the cellar of what is now termed the charnel house, except that she never went there except when told to and then came right out.

After her Uncle Gust brought her to Janesville she lived with her grandmother until she died in 1905 and then went to live with her Uncle Carl in Edgerton, going from his home to that of Miss Simonson.

There also seems to be a question as to whether Gust Gunness thought his brother murdered when he first went down there or not.

Mrs. Quenne says she remembers his saying that he thought so at first but that his wife felt so badly about

it that he was sure it was not so and that he guessed everything was all right.

Carl Gunness says his brother told him that Peter had been killed and that from what he learned of the death he was sure it was so.

Testimony on this subject as reported from Laporte is also at variance. One statement made was that the accident occurred at the Gunness home and that the meat chopper fell from the shelf about the stove onto his head and another that it occurred in the town and he was brought home dying. Jennie Olson, the dead girl, is the one who told the latter story to her sister on a visit previous to her final disappearance.

It appears that at the time that Peter Gunness died, Gust was at work here in the Janesville Machine Company and that he afterwards worked in Rumlill's tobacco warehouse before going to Minneapolis.

Follow workers at Rumlill's remember his trip to Laporte for the little girl and how he told them of "Jill the girl" when he got back.

It was expected that Swanilda would be brought to Janesville this morning for a family from the Simonson farm but something prevented and the family conference was called for this afternoon to take steps to present the little girl's case in the court in her probable suit to recover her father's property was delayed.

MAY TAKE A YEAR TO SETTLE CASE

Question of Head of Police May Drag Along For That Length of Time.

In all probability the case of the State of Wisconsin, on the relation of John Brown vs. George M. Appleby will not be finally decided within the next year and it may be much longer than that. If the case is brought to issue it can be tried in the October term of the circuit court and Judge Grimm's decision given soon after. If, however, the defendants' attorneys should demand to the complaint the demand could be argued out of term upon notice given. In either case, if upon a decision being rendered by Judge Grimm one of the parties should appeal, the case would not come up in the supreme court before next February. After it reached the supreme court it might be there for several months before any decision would be rendered. In any event it will be at least a year before a decision could be expected from the supreme court and it is probable that it will be taken to that court which ever side wins in the circuit court.

NEWS FORECAST OF THE COMING WEEK

Cleveland State Conventions Will Be Held This Week—Are the Last Ones.

Washington, D. C., May 9.—Events which promise to figure prominently in the news of the coming week include a number of state political conventions, the conference of governors at the White House, the laying of the corner stone of the Pan-American peace palace in this city, and the conclusion of the visit of the battleship fleet at San Francisco.

The last of the Republican State conventions for the election of delegates to the national convention will be held during the week. The Republican State conventions will be held in Oregon, Montana, Michigan, California, North Dakota, Idaho, Georgia, Texas and Louisiana. The Negro Republican convention has called a State convention to meet at Richmond, Thursday to elect contesting anti-Taft delegates to Chicago. Considerable interest attaches to the Democratic State convention to be held in Minnesota Thursday, where the Bryan supporters are fighting hard to prevent an endorsement of Governor Johnson for the Presidential nomination.

Pursuant to the call of Governor Hughes the New York Legislature will convene in extra session Monday to take up the anti-race-track gambling bills.

The laying of the corner stone for the magnificent building to be erected in this city as a home for the Bureau of American Republics promises to be a notable event of Monday. Cardinal Gibbons is to deliver the invocation and the speakers will include, in addition to President Roosevelt, Secretary Root, Andrew Carnegie and the Brazilian ambassador.

The conference of governors called by President Roosevelt to discuss the great problem of the conservation of the national resources will assemble at the White House Wednesday for a session of three days. It is expected that every State will be represented and many noted speakers will be heard. The conference will be preceded Tuesday by another conference of similar scope to discuss the subject of drainage.

The week will afford one continuous round of entertainment for the officers and men of the battleship fleet at San Francisco. In addition to long lists of athletic events and public entertainments, there will be a number of excursions to San Jose, Santa Rosa, Tamalpais, Vallecito, Palo Alto and other points within easy distance of the Golden Gate.

Foreign events of interest will include the opening of the British Exhibition near London and an international conference at Brussels to discuss a draft of codes on international maritime laws. The Franco-British Exhibition has been completed at a cost of \$10,000,000, and is said to be the largest affairs of its kind ever attempted in the British Isles.

Important meetings and conventions scheduled for the week include the Episcopal Church Congress in Detroit, the annual meetings of the Congressional Home Missionary Society at Pittsfield, Mass., and a convention of real estate men in Chicago to form a national organization.

START A CAMPAIGN TO DREDGE HARBOR

Fond du Lac Men Want Harbor and Fox River Dredged for Navigation.

(SPECIAL TO THE GAZETTE.)

Fond du Lac, Wis., May 9.—The businessmen of Fond du Lac are now agitating the question of dredging the harbor here and the Fox River between this city and Green Bay with a view of securing cheaper freight rates by the waterway route. With this end in view a petition is being circulated among the businessmen of the city asking their unstated support. The harbor and river could be dredged it is said without a great deal of expense. If it is found that the businessmen of Fond du Lac are solidly behind the move the leaders in this matter will present it to Congressmen Welles and have him espouse their cause of securing an appropriation for the dredging of the river and harbor at both ends. It is said that a great deal of money could be saved in freight rates if the river improvement could be secured.

JEWES ATTACKED IN DUMA

THEIR EXCLUSION FROM THE ARMY IS DEMANDED.

Rabbi Speech by M. Zamislowsky Calls Forth an Impassioned Defense by M. Roditcheff.

St. Petersburg, May 9.—An anti-Semitic demonstration broke loose in the Duma Friday night during an executive session devoted to the debate of the question of recruits for 1908. Meant Gen. Rodiger, the minister of war, and Minister of Foreign Affairs Tawolsky both were present.

During the course of the debate M. Zamislowsky, in a rabid speech urging the immediate exclusion of Jews from the army, dwelt on the pernicious influence of the Jewish anti-government propaganda with the rank and file of the army. He said 26 per cent. of the Jewish conscripts evade military service, their customary practices being to escape to America or to puncture their ear drums, making their trigger fingers or intentionally contract skin diseases.

M. Krupensky, a marshal of the nobility, followed with a definite motion to strike off Jewish recruits from the conscript list and to impose upon them a head tax in favor of the invalid pension fund.

M. Roditcheff, the constitutional Democratic leader, in an impassioned defense of the Jews, branded Russia's treatment of them. During his speech he was interrupted constantly by angry rejoinders. M. Roditcheff said the inhuman treatment of the Jews for centuries was the criminal cause of Jewish bodily defects. The sole remedy, he declared, was to lift the disabilities of the Jews. He ridiculed the complaint that the Jews were responsible for Russia's catastrophes.

MADE BISHOP OF ROCKFORD

REV. P. J. MULDOON OF CHICAGO HEADS NEW DIOCESE.

He Will Govern a Catholic Population of 50,000 Persons with Seventy-Five Priests.

Chicago, May 9.—The bishopric of the new and highly important Roman Catholic diocese of Rockford has been conferred upon Bishop Peter J. Muldoon, auxiliary bishop of Chicago and vicar general, according to reports from Washington.

Inquiries at the Roman Catholic legation in Washington failed to bring official confirmation of the report, which nevertheless was received with credence by high authorities on affairs of the church. Bishop Muldoon himself has not yet received notification of his appointment.

The new diocese of Rockford is one of much importance, despite the fact that it is entirely new. It contains a larger Catholic population and more priests than one-third of the dioceses throughout the United States which have been in existence for some time. There are 36 dioceses in the United States with a smaller Catholic population and fewer priests out of the total of 110 in this country.

The Rockford diocese has a Catholic population of about 50,000 persons, with 75 priests. There are 66 churches and 12 missions. The Catholic school population in attendance at the parochial schools is 6,000. There is no Catholic college in the new diocese. There are, however, four important church hospitals, situated at Rockford, Belvidere, Aurora and Galesburg.

The principal Catholic centers, as regards population, in the diocese are Aurora, DeKalb, Belvidere, Freeport and Elgin. The cathedral and the bishop's residence will be at Rockford. The church property in the diocese is estimated to be worth about \$2,000,000.
